INDEX

ABEL, G. *see* CHARGAFF, E.
Acetaldehyde content of apples (Fidler) 1107
N-Acetylchondrosamine, colorimetric method for determination of (Morgan and Elson) 988
N-Acetylglucosamine, colorimetric method for determination of (Morgan and Elson) 988
Acid, ascorbic, physiological action of (Demole) 770
Acid $C_8H_4O_8$, yellow (Barger and Dorrer) 11
Acid, iodoacetic, effect of, on disappearance of glucose from shed blood (Mowat and Stewart) 774
Acidosis, mechanism of, in experimental uranium nephritis (Brull and Roersch) 1513
Acids, effect of, on diffusion of soluble iron compounds *in vitro* (Brock and Taylor) 447
Acids, fatty dibasic, oxidation of, by hydrogen dioxide in presence of a cupric salt (Ponsford and Smedley-Maclean) 892
ADAIR, G. S. and ADAIR, M. E. The determination of the membrane potentials of protein solutions and the valence of protein ions 199
ADAIR, G. S. and ADAIR, M. E. The determination of the isoelectric and isoionic points of haemoglobin from measurements of membrane potentials 1230
ADAIR, M. E. *see* ADAIR, G. S.
ADAM, N. K. *see* DANIELLI, J. F.
ADAMS, G. A., BRADLEY, R. C. and MACALLUM, A. B. The ultra-violet spectrum of oxyhaemoglobin 482
ADANT, M. C. *see* DULIÈRE, W. L.
Adenine, quantitative determination of, in presence of guanine (Jorpes) 2097
Adrenal glands of the ox, vitamin C in (Westergaard) 1212
Adrenalectomy, lactic acid, sugar and inorganic phosphorus of blood of ruminants after (Strand, Anderson and Allcroft) 642
Adsorption experiments with vitamin A concentrates (Castle, Gillam, Heilbron and Thompson) 1702
Aerobic bacilli, hydrolysis of certain polysaccharides and proteins by the endospores of (Tarr) 391
Agalactia, dehydrogenases of the filterable organism of (Pirie) 411
ALCOCK, R. S. The non-essential nature of tyrosine 1174
ALCOCK, R. S. Tryptophan deficiency 1721
Alcohol, ethyl, content of apples (Fidler) 1107
Alcohol, saturated solid, from urine of pregnant mares (Haslewood, Marrian and Smith) 1316
Alcohols, higher primary, melting-points and long crystal spacings of (Piper, Chibnall and Williams) 2148
Alcohols, primary, present in plant and insect waxes, constitution of (Chibnall, Piper, Pollard, Williams and Sahai) 2189
Alkaloids, action of, in bird malaria (Buttle, Henry and Trevan) 426
ALLCROFT, W. M. and GODDEN, W. Changes in the calcium and magnesium of the serum, and in the inorganic phosphorus of the blood of cows at calving and in that of the calf during early life 1004
ALLCROFT, W. M. and GREEN, H. H. Blood calcium and magnesium of the cow in health and disease 2220
ALLCROFT, W. M. *see also* STRAND, R.
Amino-acids, and nitrogen distribution in antibodies and serum-proteins (Hewitt) 2080
Amino-acids, identification of, by means of 3 : 5-dinitrobenzoyl chloride (Saunders) 580
Amino-acids in wheat flour (Samuel) 273
Amino-acids, salting out of, from protein hydrolysates (Hill and Robson) 1008
Ammonia, biological or photochemical oxidation of, to nitrous acid (Corbet) 1575
Ammonium chloride, effect of, on excretion of calcium in rats (Pugsley and Anderson) 754
Amylase, a kinase of, in trypsin preparations (Chrząszcz and Janicki) 1949
Amylase, animal, inactivation of, by plant paralysers (Chrząszcz and Janicki) 296
Amylases, plant and animal, influence of vitamin C (ascorbic acid) on (Purr) 1141
Anaemia, action of gastric juice on beef muscle-globulin, with reference to (Griffiths) 671
Anaemia, respiration of red blood corpuscles in various forms of (Deutsch) 2002
Anaerobes, strict, metabolism of (Stickland) 1746
Anaerobiosis, bacterial, mechanism of (Messing) 1894
Analyses, fatty acid, general interpretation of, by the ester fractionation method (Hilditch) 779
Analytical study of Liesegang rings (Hughes) 1086
ANDERSON, E. *see* PUGSLEY, L. I.
ANDERSON, W. *see* STRAND, R.
Angler fish (*Lophius piscatorius*), pigments from (Burkhardt, Heilbron, Jackson, Parry and Lovern) 1698
Anions, combination of coagulated protein particles with (Maizels) 2133
Anions, diffusion rate of, through tissues (Conway and Kane) 1769
Anions, penetration of erythrocytes by (Maizels) 337
Anthelminthic constituent of the leaves of *Calycopteris floribunda* (Ratnagiriswaran, Sehra and Venkataraman) 1964
Anthocyanins, survey of (Robinson and Robinson) 1712
Antibodies, chemistry of (Hewitt) 2080
Anti-cancer bodies, specific, stabilisation and purification of (Lumsden and Macrae) 1968

Antirachitic action of butter (Kon and Booth) 111
Antirachitic factor, labile, in butter (Kon and Booth) 121
Aorta, calcification of, *in vitro* (Rosenheim and Robison) 712
Apples, estimation of ethyl alcohol and acetaldehyde content of (Fidler) 1107
Aqueous humour of the ox, ascorbic acid in (Birch and Dann) 638
Arcain and arginase (Baldwin) 1155
Arginase activation, relation of intermediate metabolic products to (Purr and Weil) 740
Arginase and arcain (Baldwin) 1155
Arsenate and arsenite, influence of, on enzymic breakdown of phosphoric acid esters (Pett and Wynne) 365
Ascorbic acid, action of, on tumour metabolism (Woodhouse) 1974
Ascorbic acid content of certain citrous fruits (Bacharach, Cook and Smith) 1038
Ascorbic acid content of suprarenals and liver, is it under control of the nervous system? (Beznák and Hariss) 2039
Ascorbic acid, effect of, on fatty acid oxidations in the liver (Quastel and Wheatley) 1014
Ascorbic acid in man, urinary excretion of (Johnson and Zilva) 1393
Ascorbic acid in the eye-lens and aqueous humour of the ox (Birch and Dann) 638
Ascorbic acid, influence of, on plant and animal amylases (Purr) 1141
Ascorbic acid, large scale preparation of, from Hungarian pepper (*Capsicum annuum*) (Banga and Szent-Györgyi) 1625
Ascorbic acid, physiological action of (Demole) 770
Ascorbic acid, separation of cysteine from, by mercuric acetate (Emmerie) 268
Ascorbic acid, suitability of prune for titration of (Melville and Richardson) 1565
Ashford, C. A. Glycolysis in brain tissue 2229
Aspergillus Fischeri, fractionation of nitrogen in mycelium of (Gorcica, Peterson and Steenbock) 504
Aspergillus glaucus series, crystalline pigments of species in (Gould and Raistrick) 1640
Aspergillus niger, acids produced from sugar by a *Penicillium* parasitic upon (Yuill) 222
Auchinachie, D. W. and Emslie, A. R. G. The significance of phosphatase estimations in the adult fowl 1993
Auchinachie, D. W. *see also* Fraser, A. H. H.
Avian cartilage, development of calcifying mechanism in (Fell and Robison) 2243
Ayre, C. A. *see* Chibnall, A. C.

Bacharach, A. L., Cook, P. M. and Smith, E. L. The ascorbic acid content of certain citrous fruits and some manufactured citrous products 1038
Bacilli, aerobic, hydrolysis of certain polysaccharides and proteins by the endospores of (Tarr) 391
Bacteria, heterotrophic, enzymic formation of hydrogen sulphide by (Tarr) 192
Bacteria, intestinal, action of, on cholesterol (Dam) 820
Bacteria, propionic acid, pyruvic acid in the dissimilation of glucose by (Wood and Werkman) 745
Bacteria, root nodule, fermentation of sugar by (Virtanen, Nordlund and Hollo) 796
Bacterial anaerobiosis, mechanism of (Messing) 1894
Bacterial cultures, quantitative determination of indole in (Happold and Hoyle) 1171
Bacterium coli, dehydrogenases of (Yudkin) 1454, 1463
Bact. coli, reversibility of hydrogenase system of (Green and Stickland) 898
Baker, L. C. *see* Bushill, J. H.
